**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION*****Election/Restrictions***

This application contains claims directed to the following patentably distinct species:

(A) cosmetic compositions of polyester, oil and colorant where the polyester is of formula (I)

wherein  $T_2O$  is:

and  $-OT_1O-$  is:

Art Unit: 1614

(B) cosmetic compositions of polyester, oil and colorant where the polyester is of formula (I) but is not (A)

(C) cosmetic compositions of polyester, oil and colorant where the polyester is not of formula (I)

If species of (A) is elected, a specific R group is required. A specific range of x is also required. The applicant is also required to specify the D group in formula (I).

If species of (B) is elected, the applicant is required to specify the groups of T<sub>1</sub>, T<sub>2</sub> and D and provide a specific range for x.

If species of (C) is elected, a specific polyester is required.

In addition, further species election is required for the amount of polyester present in the cosmetic composition.

The applicant is also required to provide a specific oil as well as its amount that is present in the composition.

Art Unit: 1614

The applicant is further required to specify the form of which the cosmetic composition is in.

The above species are independent or distinct because the components in the compositions are of different compounds having different structures, activities and chemistry. The presence or absence of different compounds and different proportions of compounds present would result in different cosmetic effects of the composition. Different forms of the cosmetic composition would need different other substances.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, all claims generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nancy L. Zhang whose telephone number is (571)-272-8270. The examiner can normally be reached on Mon.- Fri. 8:00am - 4:30pm EST.
